Aging in 350L barrels, quercus robur, limousin, withdrawal by gravity, at the new moon. Reduction in spring water.

## Tasting

**Eye:** pale gold

**Nose:** candied pear, pastry cream

**Palate:** fruity, balanced, empyreumatic

45% vol.

## Porto Flip cocktail:

Red port 60 ml  
Cognac 15 ml  
Simple sugar syrup 10 ml  
Egg yolk 1  
Nutmeg 1

Make the recipe for the Porto Flip cocktail in a shaker. First rotate ice cubes in a wine glass to cool it. Then pour the red port and cognac into the shaker. Add the simple sugar syrup and the egg yolk. Then shake it all for the first time, for 10 seconds, without ice cubes. Then add ice cubes and shake again for 15 seconds. Remove the ice cubes from the wine glass. Pour the mixture into it, double filtering it with a cocktail strainer. You can possibly decorate your glass with nutmeg, to grate delicately below the foam. Your Porto Flip cocktail is ready!
